

"The most important resource of any area is its people, their abilities and skills," says the August Review of the Federal Reserve Bank of St. Louis — and that's a very good paragraph in itself.

The same monthly publication reports that Eighth Federal Reserve District income last year was smaller than in 1948 — off about one per cent, measured in terms of buying power.

Continues the report: "In the United States as a whole, the dollar amount of income also fell. The crop was relatively smaller — than in the district . . .

"The greater decrease in district income was due to a combination of two developments. This district, with its relatively heavy dependence on agriculture as an income source, was hit harder by the general decline in farm prices. In addition, the district experienced a poorer crop year than did the country as a whole, so the impact of the price decline was accentuated here.

"Within the district, income losses were most severe in the farm sections — particularly in the cotton areas. In physical volume, the district cotton crop in 1949 was 21 per cent smaller than in 1948. So much for 1949 and its statistics.

By the same standard of measurement the tide is more favorable for this area in 1950 and 1951. War-accustomed demand for commodities has stimulated the price structure, and while the weather has put a great big question mark opposite this year's cotton crop, the general feeling is one of optimism.

Clinics to Study School Library Needs

Principals and superintendents of Hempstead County, the County Supervisor of schools and the County Librarian met at the Hope High School Monday and made plans for two pre-school clinics to be held in Hope September 6-7.

A regional Library Clinic for superintendents and librarians of Nevada, Miller and Hempstead counties will be held at Hope High School Tuesday, September 5.

The purpose of the Clinic will be to give information on requirements for school libraries. John Trice of the State Department of Education, Miss Irene Mason and Miss Mary Louise Giraud of the State Library Commission will be principal speakers.

A one day Workshop for administrators and teachers of Hempstead County will be held September 6. Reading, art, arithmetic, music, social studies, science, vocational education, and libraries are some of the subject fields on the program.

Members of the State Department of Education and other visiting specialists in the various subject fields will conduct the various groups and will be available for consultation.

No credit will be given for attending this meeting. Each superintendent and teacher is urged to make every effort to attend this workshop as the many sessions are planned to be helpful and to stimulate interest for the coming school year.

Benefit Program August 11, at Rosston School

The Sunshine Quarter will be at Rosston High School August 11, at 8:15 for a singing program under sponsorship of the ladies auxiliary of the Rosston Baptist Church. The Nash Girls quartet will also participate on the program. The public is invited. Admission to this benefit is 25 and 50 cents.

Aged Hempstead Negro to Be Buried Aug. 9

Munn Phillips, aged 90, lifelong Negro resident of Hempstead County, died Saturday at his home four miles east of Hope. He was a brother of the late Calvin Phillips. Funeral services will be held Wednesday, August 9 at 2:30 p. m. at Phillips Cemetery, near Hope.

WEATHER FORECAST

Arkansas: Cloudy this afternoon, tonight, Wednesday. Scattered thunder showers in north. Not much change in temperature.

EXTENDED ORECAST

Extended forecast for the period Aug. 8-12:

Arkansas, Eastern Louisiana, Alabama, Mississippi, northwest Florida — temperatures will average 1-2 degrees above normal. Normal minimum 69-73. Normal maximum 91-96. No important changes. Precipitation light. A few scattered thunder showers about Thursday.

Yanks Continue Drive

Voting in Hope Running About as Usual

Voting in Hope in the runoff primary election was slightly less than in the preferential primary held July 25, according to a check of local polls today.

The total count at 1:30 p. m. was 135 against 1050 in the previous balloting.

The three boxes in Ward 1, headed the list with a combined total of 381 votes as compared to 394 in July; Ward 2 (two boxes) 200, just 10 less than the last vote; Ward 3, 101 as compared to 91; Ward 4, 137 compared to 131; County Box 5, only 150 as compared to 170 in July and Box 6, was 66 as compared to 54.

Little Rock, Aug. 8 — (AP)—Arkansas will renominate U. S. Sen. J. W. Fulbright, six congressmen and several state officials in today's second Democratic primary.

They are without opposition for the nominations which virtually assure election in heavily Democratic Arkansas.

Only two statewide races are on today's ballot, both for unexpired supreme court terms. They were sent to the second primary when no candidate received a majority vote in the July 25 preferential primary.

Gov. Sid McMath, Lt. Gov. Nathan Gordon, State Treasurer J. Vance Clayton and Congressman Oren Harris were renominated by majority votes in the first primary.

Principal interest in today's voting will be in the district, county and city races.

A few thundershowers are forecast today, but even if the weather is perfect, the vote is not expected to be nearly as heavy as the record 327,559 cast July 25.

Unopposed for nomination today are Congressmen E. C. Gathings, Wilbur Mills, Jim Trimble, Boyd Tackett, Brooks Hays and W. F. Norrell, Secretary of State C. G. Hall, Attorney General Ike Murry, Auditor J. Oscar Humphreys, land Commissioner Claude Rankin and Supreme Court Justices Ed F. McFadin and Minor Millwee.

Rep. Hulsey Promises to Serve Public

Thurston Hulsey, Washington unopposed candidate for re-election to representative Post No. 1, today expressed his thanks and appreciation to the citizens of Hempstead County for their support and encouragement.

Mr. Hulsey said he believed that the government should serve the people instead of the people being servants of the government.

"I know I am your representative in the legislature and I will do what I think the people want done," Rep. Hulsey concluded.

Jimmy Ponder Reported to Be 'Resting Better'

Jimmy Ponder, critically injured in a motorcycle accident Sunday on South Main Street, was reported to be "resting better" today by attendants at Branch Hospital. Young Ponder suffered severe head injuries.

Two Movies to Be Shown at Negro Park

Two movies will be shown at the Negro Baseball park Wednesday night, starting at 8:30. The public is invited.

AME Church Picnic

Bethel A. M. E. Church picnic will hold a weiner roast tonight, August 8, on the Hicks lawn. The membership is invited.

VFW to Meet

The VFW will hold a meeting at the organization's hut, east on Highway 67, at 8 o'clock Wednesday. All members are urged to be present.

Shirley May's Father Says Just Wasn't Meant

Somerset, Mass., Aug. 8 — (AP) — "It just wasn't meant to be."

That was Walter France's reaction today when he learned his daughter, Shirley May France, had failed in her second attempt to swim the English Channel.

"There will be no more swimming," France said. "Shirley definitely will not attempt the channel again."

Shirley, a high school junior, had set her heart on swimming the channel before her 18th birthday — on Friday.

Russia Faces Another Rebuff in UN Meet

Lake Success, Aug. 8 — (AP) — Russia faced another United Nations rebuff on Korean today, but she was expected to strike back with her 44th veto.

Delegates were generally agreed on this as they prepared to open the second week of the Korean diplomatic battle at a session this afternoon of the 11-nation security council.

Whether the council would vote today or later in the week remained to be seen. If Russia followed last week's pattern, however, a lot more procedural wrangling appeared to be in prospect.

The delegates had before them two proposals, one offered by the United States and one by the Soviets. When the council adjourned Friday for the weekend, it already had become clear that a majority vote would kill the Soviet resolution and a Russian veto was waiting for the U. S. proposal.

The actual conduct of the military campaign in Korea, however, will not be affected by the council stalemate.

The Soviet proposal provides: (1) that the council invite Red China and Red Korea to take part in U. N. Korean discussions and (2) that the council call for an immediate end of hostilities in Korea and order the withdrawal of United States and other foreign troops.

The U. S. proposal condemns North Korea for ignoring the council's previous ceasefire orders and calls upon all countries to use their influence to end the fighting or at least to keep it from spreading.

The American resolution obviously was aimed directly at Russia, since most of the world's non-Communist countries already are doing everything they can to stop the North Korean invasion of South Korea.

The Soviet resolution, on the other hand, was not even considered seriously by the council majority, even though Soviet Deputy Foreign Minister Jakob Malik, this month's council president, filed it under the heading of peaceful settlement of the Korean question.

The Soviet proposal in effect would have the council call off its efforts to drive the North Koreans back to the 38th parallel and leave the Communists in control of all but the Southern tip of Korea. Then, under the Soviet plan, peace talks would begin.

Postmaster at Texarkana Succumbs

Texarkana, Aug. 8 (AP) — Albert Judson Pryor, 59, Texarkana postmaster since 1934, died unexpectedly at his office here yesterday.

He was stricken during a telephone conversation with Mrs. Charles Sisk. She notified assistant Postmaster T. R. McClurg who found Pryor slumped on the floor by his desk.

Pryor, a native of Holly Springs, attended Ouachita college.

SUED FOR DAMAGES

Los Angeles, Aug. 7 — (AP)—Italian Actress Valentina Cortese faces charges of damages she did to a Hollywood home she rented for a year.

Mrs. Brook Waring Lewis, a writer, charged that table cloths, silverware and other articles were missing, linen, dapes and carpets damaged, and the grounds uncared for during the time Miss Cortese lived in the home.

A geyserite is a deposit that often forms around springs and geysers.

New Channel Record; Shirley May Gives Up

Dover, England, Aug. 8 — (AP) — Florence Chadwick, San Diego swimmer, conquered the English channel today in record time but Shirley May France was forced to give up eight miles off shore.

Miss Chadwick, who is 31 and a professional swimmer, cut the women's record set by Gertrude Ederle in 1926. She made it in 13 hours 28 minutes, one hour and three minutes under the Ederle mark.

She swam to Dover from Cap Gris Nez, France, on a course of at least 22 miles and scrambled ashore through sea weed.

Thousands of persons lined the white cliffs of Dover. Reporters asked Miss Chadwick if she was all right. "Yes," she said. "But these slippery, jagged rocks are not so good to scramble over after a long swim."

"I feel fine and am quite prepared to swim back."

When she was only a quarter mile out, she had been asked if she wanted to rest her legs.

"No fear," she answered, laughing. "I'll keep going now. It looks like another yard or so to the finish."

She actually did not touch dry land, at the end.

"A few feet from the shore line under the 250-foot cliffs, she clambered into one of her rowboats. But no one doubted that she had finished her swim and made it one of the greatest in the history of channel attempts.

She was not far short — by channel swim standards — of the recognized men's record of 11:05 set by France's Georges Michel in 1926.

On the English Channel, Aug. 8 — (AP) — Two American girls struggled through the cold water of the English Channel today — one at the halfway mark, the other nearer the finish at the white cliffs of Dover.

Ten minutes ahead of her record breaking schedule and more than halfway across at 9:45 a. m. (3:45 a. m. EST) was Florence Chadwick, 31, San Diego, Calif., professional. Her sights were set on Gertrude Ederle's 24-year-old record for a woman channel swimmer of 14 hours and 31 minutes.

Shirley May France, 17, Somerset, Mass., high school girl on her second attempt to swim the channel, was about midway at 9:45. She appeared to have recovered from an earlier violent vomit.

Moe, America's Veteran Combat Dog, Has Battle Fatigue, to Be Retired

By HAL BOYLE

A Fifth U. S. Air Force Base in Korea — (AP) — Leaves from a war reporter's notebook:

Moe, America's most veteran combat dog, has been retired from the war wars by old age and battle fatigue.

The peppery little black and white mongrel has spent six years with the air force. He was first picked up in Australia by Lt. Jack Coghlan of Longview, Texas, and later flew 25 combat missions in the Second World War standing in the catwalk of a Douglas Havoc bomber.

In the years since then Moe has lived on practically every air base in the Pacific and had half a dozen or more owners. He is known by name to hundreds of airmen in the Far East. Since coming to Korea his duties have been strictly limited to ground observation and security patrols.

"He won't make any more missions," said his present owner, Sgt. Daniel Kinney, San Francisco. "He's really got combat fatigue — he shakes all over now every time he goes up in a plane."

But Moe doesn't like war on the ground much better. The soldiers sometimes tease him by pointing their carbines at him. Each time Moe barks worriedly until the gun is put away.

Moe wears Sgt. Kinney's dog tags and there is a deep and real attachment between them. At the sergeant's command Moe will sit up, roll over, shake hands, speak or retrieve anything from a rock to a baseball bat.

His greatest enemy is a tattered stuffed monkey that hangs from a wall and bears the sign "specialists on gorilla warfare." For some reason Moe developed a frantic hate for the silent monkey leaping down at him. Several

PSC Makes Bell Telephone Rate Hike Permanent

Little Rock, Aug. 8 — (AP) — The temporary telephone rate increase granted Southwestern Bell Telephone company by the Arkansas Public Service commission in September, 1946, has been made permanent.

The commission yesterday issued an order approving the increase of approximately \$1,929,000 annually.

Truman to Ask Huge Tax on Corporations

Washington, Aug. 8 — (AP) — Close associates said today President Truman has made up his mind to ask congress for a multi-billion dollar excess profits tax on corporations.

This word reached Capitol Hill as some members of his own party threatened to go beyond the President and tack on an "anti-profiteering" levy on the \$5,000,000 "first installment" general tax boost the President requested to help pay for arming against Communist aggression.

Mr. Truman did not mention an excess profits levy in his first request for more taxes, at the outbreak of the Korean war. His reported intention now to call for one was subject, of course, to developments.

A drive has developed in congress to put it into law, without his recommendation, just as support piled up for a similar movement to give him economic powers — over prices and wages — broader than he requested.

Senator O'Mahoney (D-Wyo.) and Rep. Mill (D-Ark) each was waiting for the opportune time to call for show-downs on an excess profits tax O'Mahoney said he has in mind an "anti-profiteering" levy that would collect about \$4,000,000,000 a year.

It is not certain whether something bordering on a stampede "to take the profits out of war," as sponsors put it, will be averted now by word that the President himself intends to ask for the profits tax later.

Mills said "if congress is going to authorize ceilings on wages and prices it certainly must put a ceiling on profits."

Meanwhile, the new general tax bill—being built around Mr. Truman's \$5,000,000,000 request — began to take shape in the senate finance committee.

Marines Plan to Call Up 80,000 Men

Washington, Aug. 8 — (AP) — The fighting marines are digging deep into their existing manpower resources and may call soon for authority to expand.

The corps announced plans yesterday to call up all their 80,000 volunteer reserves. This will give them an active strength of 200,000 — and mobilization down to just about as far as they can go now.

However, Chairman Vinson (D-Ga.) of the house armed service committee said he expects a request from the defense department in January for another military appropriation including \$500,000,000 to increase marine corps strength.

And Rep. Mansfield (D-Mont.) told the house yesterday that the corps should be kept permanently at a minimum of 300,000 men.

"The attempts which have been made to whittle the corps down to a guard outfit, through appropriations, must be stopped once and for all," Mansfield said.

The first 50,000 of the marine volunteer reserves are to be ordered to active duty between Aug. 15 and Oct. 31. No mobilization date has been set for the remaining 30,000.

Organized ground reserve units already have been summoned to active duty.

Some air reserve units went on active duty about three weeks ago and additional units are to be called up.

Some women reserves also are to be called but the marines aren't sure how many.

There are 72,000 marine regulars, 44,000 in the organized ground reserve, 7,000 organized reserve air units and 80,000 volunteer reserves.

The volunteer reservist is not trained nor paid until called to active duty. The organized reservist trains regularly and is paid.

Guardsmen of 3 States Go Into Training

Camp Polk, La., Aug. 8 — (AP) — Louisiana and Mississippi national guardsmen swing into a full-scale training program today in the 39th division's annual encampment.

The 8,000 guardsmen go into the field for the encampment's first tactical training and firing range work. Lt. Col. Leslie Cave of Baton Rouge, plans and training officer, said all men and officers, including those service specialists frequently called chairborne, would undergo soldierly field training.

The guardsmen began arriving here Sunday, and spent yesterday in clearing up preliminaries to the two-week intensive training period. Some 14 high ranking regular army officers are eyeing the drills.

Unit commanders met yesterday to discuss camp programs and to iron out kinks. Athletic programs were set up under Lt. Harry (Hoss) Mentas, coach at New Orleans' Warren Easton high school, and Lt. Jimmy Thibaut, former Tulane football star.

Mentas and Thibaut said the athletic program would include everything from softball to boxing. The guardsmen may have to double as rodeo hands in the field for a while. Despite appeals, some farmers have not removed their cattle from the firing range, where they graze when the camp is idle.

Maj. Henry Platt, acting public information officer, said the units have been ordered to shoot above, below and around anything that looks like a cow.

And officers indicated some of the men may be used to round up the cattle still on the range.

ENERGETIC FIREMAN

Earlville, N. Y., Aug. 8 — (AP) — When fire broke out in his home, Donald Russell rescued his wife and six children, drove five miles to sound the alarm at a volunteer firehouse, then drove a firetruck back to the house.

Other volunteer firemen helped Russell extinguish the flames.

Fire Chief Frank Morgan estimated the loss at \$2,500.

Telegrams frighten most people yet statistics show the odds are two and one-half to one that the message they bring is good news.

Sunny Skies Bearing Down Over Nation

Chicago, Aug. 8 — (AP) — Sunny skies and pleasant temperatures were promised wide areas of the country today.

The early morning forecast predicted near seasonal temperatures and fair weather from the southern Great Lakes to the New England states and southward to the eastern gulf states. Fair weather also was forecast for the far west. The southwest and the Rio Grande valley were the country's hot spots.

There were light showers early today over parts of Iowa, Missouri and central Illinois. Thunder showers were reported in the Lake Superior region and southern Rocky Mountain states. The heaviest rainfall was 1.60 inches in three hours last night at Kansas City.

Two Bandits Elude Dallas Officers

Dallas, Tex., Aug. 8 — (UP) — Two bandits apparently escaped from a police trap today after a blazing gun battle in which a third outlaw was shot down and captured.

The gunmen made off with \$15,000 in jewelry taken when they held up wealthy oilman E. R. Brann and his wife in their fashionable Preston Hollow home.

Thirty officers searched the area for several hours before dawn and Capt. Lloyd S. Reeves said the two men apparently had made good their escape.

Ten or more squad cars were sent to search a wooded area east of there after daybreak.

The gunfire broke out when police ambushed the bandits in the act of robbing Mr. and Mrs. Brann. The captured gunman, who was wounded in both knees, was identified as Flemming Van Derrick, 33, of Chickasha, Okla.

Tim Treadway, a neighbor, called police when he became suspicious of a car parked near the Brann home.

Officer William C. Grinnell, one of two policemen answering the call, said he was met at the door of the Brann home by a man who said, "Come on in; I know why you're here."

"I started in," Grinnell said, "and another man stuck a gun in my back and took my pistol. Then they emptied my pistol at my partner in the squad car outside."

The spray of bullets missed the other officer, however.

The bandits ran out a rear door of the house, taking Grinnell's pistol with them.

Grinnell ran to the squad car and grabbed a shotgun.

"I saw them near a car and I started that way when a man opened up with the machine gun," he said. "They fired a burst and I dropped to the road. When it ended, I got up and blasted away with the shotgun. Then there was another burst and I hit the deck again."

Then the men raced away in their getaway car.

Grinnell thought he had missed with his shots. But officers found Van Derrick lying in the street. He was taken to Parkland hospital. His condition was not believed serious.

Ten More Battle Casualties Are Announced

Hot Springs, Aug. 9 — (AP) — Ten more battle casualties from the Korean front were admitted to the Army and Navy General hospital last night. All are suffering from gunshot wounds in the arms and legs. While their condition is not regarded as serious, they will require several months hospitalization, medical officers say.

Arriving by hospital plane at Little Rock and transferred here by ambulance were: Sgt. J. C. James R. Aitchison, 23, Fort Pierce, Fla.; Cpl. Clayborn J. Flanagan, 19, Springfield, Miss.; Cpl. Lloyd F. Tallock, 20, Judyville, Ind.; Cpl. Robert Van Matra, 25, Amboy, Ill.; Pfc. George R. Morse, 21, Middlegrove, Ill.; Pfc. Bryant Wood, Jr., Nahira, Ga.; Pfc. Alfoncia Tyson, 21, Lamont, Fla.; Pfc. Samuel E. Eaton, 20, Panama City, Fla.; and Pvt. Fred M. Odle, 19, McLeansboro, Ill.

Soldier Missing

Batesville, Aug. 8 — (AP) — William H. Wood, Batesville, has been notified by the defense department that his son, Pfc. William Clinch Wood, 25, is missing in action in Korea.

Wood, who enlisted in December, 1949, was with the 24th division.

Reds Slip Across Naklong to Pose New Threat

Tokyo, Wednesday, Aug. 9 — (AP) — North Korean troops slipped across the Allied Naklong defense barrier in Korea, bulged out two miles eastward, a 2,000-yard front Tuesday.

General MacArthur's war diary, released at 11:30 a. m. CST Tuesday (7:30 a. m. EST), said the "possible threat from small bridgeheads across the river 'has neither increased nor decreased'."

Upwards of 6,000 Reds were reported over in two river crossings.

U. S. Eighth army headquarters in Korea said the two Communist bridgeheads were of "many concern at present."

The two-day old American rifle and infantry offensive in extreme south made small bloody gains in day-long fights. Earlier it was bogged by Communist flanking that "pointed army unit for a while U. S. rifles broke that and an army men from the trap."

The offensive had gained miles and was 10 or 12 miles of Chinju. Red-held rubble in the south.

The Red bridgeheads threatened to "cut off" the places.

One was five miles north of Chinju, 15 miles northeast of Seoul, the other South Korean capital. The other was miles south of Chinju, 10 miles southwest of Seoul.

A third bridgehead was 9,000 feet from the first, slanting across the river. The distance was 10 miles.

General MacArthur said one of eight tanks had been ferried across the river by the Communists.

General MacArthur is an expert words of confidence to President Truman.

"Tell the President not to worry. We are confident about the situation over here," he told W. A. Harriman, the President's special assistant and adviser on Korean affairs, as Harriman left Washington after a three-day visit.

The tank exploded in three major battles.

The big one was northwest of Tagu.

Another flamed in the extreme south.

The third was a Red bridgehead across the Naklong, near Changnyong, where fresh U. S. troops were ordered to destroy the river-crosses by Tuesday nightfall.

The Communists had advanced two miles or more in some sectors across the river in the Yalu 21 sector. Seven Red tanks were under move over the river, under top priority American attack.

One of General MacArthur's intelligence officers estimated North Korean losses in six weeks as 44,500 men — an average of more than 1,000 a day in the six-week old war.

When the fresh army troops were thrown at the remnants of two regiments that China had sent to the Yalu, the two American Mustangs joined attack and strafed the doughboys hitting 19 of them.

Col. Charles E. Beauchamp, commanding the 34th infantry, continued on Page Two.

Mrs. S. L. Fuller.

Harry Bridges

Continued From Page One

San Francisco, Aug. 8—(AP)—

Harry Bridges, jailed as "agent

program" today makes his second

bid to win freedom.

This time is before the U.S.

Circuit Court of Appeal. He failed

on his first attempt—made yester-

day before a federal district

judge.

Meanwhile, an estimated 4,000

members of Bridges' CIO long-

shore union, walked off their jobs

on Hawaii sugar plantations to

protest his jailing.

Bridges was jailed Saturday at

government request by federal

Judge George B. Harris. The

judge revoked Bridges' \$25,000

bail and labeled him "loyal to

the Communists."

He was out on bail while his

"cease and desist" order was

pending review by the court of

appeal. In April, he was con-

victed in federal court of

having lied in his 1945 natural-

ization hearing when he said he

never was a Communist.

In today's action his lawyers

seek his release on a writ of ha-

beas corpus. They failed to get

it from the district court yester-

day. They contend the jailing of

the waterfront leader is a violation

of his constitutional rights.

When Judge Harris revoked bail

Saturday he termed Bridges

"probably one of the most potent

figures in the Communist party in

America today."

Champagne for Cakes

CELESTE HOLM • VINCENT PRICE

New Channel

Continued From Page One

The Massachusetts girl began

her try at Cap Gris Nez, France,

at 2:58 a. m., 19 minutes after

Miss Chadwick started.

Murat Guler, 21-year-old Turk,

had not been sighted since he

waded into the water at Gris

Nez at 3:30 p. m. yesterday af-

ternoon. Guler had expected it

would take him 30 hours to reach

the English coast.

An Argentine, Antonio Alberton-

do, left Dover for France last

night with plans to start his at-

tempt from Gris Nez at mid-

night. There was no further word

from him, but observers on the

French coast said it would have

been easy to miss him in the dark.

Miss Chadwick was doggedly

following a 22-mile route laid out

by her father, R. W. Chadwick.

Associated Press Correspondent

Harvey Hudson, riding in her pil-

ot boat, reported she had dropped

her initial stroke of 60 a minute

to 28 or 29. But she showed no

signs of fatigue.

"Am I making progress?" she

asked several times.

"You're doing fine," was the

repeated answer from the pilot

boat accompanying her.

The intrinsic worth of the person

has very little, if anything, to do

with it. Every day we see fretful,

discontented women married to

men who are model husbands,

who are tender, kind, considerate

and provide them with every com-

fort. And we see men who are un-

faithful to wives who are beauti-

ful, intelligent, amiable, domestic,

paragons of wives. And we see wo-

men happy and content with hus-

bands who fall off the water wagon

now and then, who are high-temp-

ered and irritable, who are shift-

less and lazy and poor providers.

And we see husbands crazy about

wives who are homely or dumb or

extravagant or sloppy and slovenly

housekeepers. The explanation in

that the happy married people are

those who have found their mates,

the ones who had the qualities that

satisfied them, and that outweighed

all their faults. Whereas the mis-

matched found even their husbands'

and wives' virtues intolerable be-

cause they answered no correspond-

ing need in themselves. For proof

of this theory you have only to

notice how often second marriages

are happier than first.

Inasmuch, however, as our

chances of winning out in the

matrimonial lottery by finding the

mate which Nature intended for us

are about a million-to-one shot, it

is safe to sit down and fold our

hands and trust to Lady Luck to

bring our prize to us. Nor is it

feasible to wander about with a

dark lantern in our hands search-

ing for the Right One, as Diogenes

searched for an honest man.

The best we can do is to look 'em

over as carefully as we can, and

to try to deduce from this and that

whether he or she fills the bill or

not. It is, of course, a procedure

in which one is liable to make mis-

takes, but it leaves us an opportu-

nity to at least exercise our own

taste and discrimination.

Dear Dorothy Dix: I am much

interested in these young men who

have been writing you who are fear-

ful lest they should not have auth-

ority over their wives. If a man

lives a life of unselfish considera-

tion for his wife, provides for her

ungrudgingly, constantly develops

the qualities which challenge her

admiration, there will be no ques-

tion as to his authority. If, on the

other hand, he is tyrannical and

stingy and arbitrary and demands

slavish service and obedience, his

wife may give him outward defer-

ence, but in her heart she will

despise him.

A WOMAN OF SIXTY FIVE

YEARS' EXPERIENCE

Answer: You are right, sister. If

a man wants his wife to look up to

Ideal Mate

Dear Miss Dix: Do you believe

that there is a certain mate created

by Nature for every person, or do

you believe that it is up to us to

select our own mates?

T. A. S.

Answer: I am sentimental en-

ough to believe that there is a

mate for each of us somewhere in

the wide, wide world, someone who

is our counterpart, who would sat-

isfy our every need of soul and

mind and body. But I am also very

certain that our chances of ever

finding our affinity are so remote

as to be negligible.

The happy marriages are those

of the lucky people who have found

their mates. The unhappy marriage

are those in which the husband and

wife are mismatched. The whole

problem of the success or failure

of a marriage is bound up in getting

the husband or wife who is the right

one for the individual.

Intrinsic Worth Unimportant

The intrinsic worth of the person

has very little, if anything, to do

with it. Every day we see fretful,

discontented women married to

men who are model husbands,

who are tender, kind, considerate

and provide them with every com-

fort. And we see men who are un-

faithful to wives who are beauti-

ful, intelligent, amiable, domestic,

paragons of wives. And we see wo-

men happy and content with hus-

bands who fall off the water wagon

now and then, who are high-temp-

ered and irritable, who are shift-

less and lazy and poor providers.

And we see husbands crazy about

wives who are homely or dumb or

extravagant or sloppy and slovenly

housekeepers. The explanation in

that the happy married people are

those who have found their mates,

the ones who had the qualities that

satisfied them, and that outweighed

all their faults. Whereas the mis-

matched found even their husbands'

and wives' virtues intolerable be-

cause they answered no correspond-

ing need in themselves. For proof

of this theory you have only to

notice how often second marriages

are happier than first.

Inasmuch, however, as our

chances of winning out in the

matrimonial lottery by finding the

mate which Nature intended for us

are about a million-to-one shot, it

is safe to sit down and fold our

hands and trust to Lady Luck to

bring our prize to us. Nor is it

feasible to wander about with a

dark lantern in our hands search-

ing for the Right One, as Diogenes

searched for an honest man.

The best we can do is to look 'em

over as carefully as we can, and

to try to deduce from this and that

whether he or she fills the bill or

not. It is, of course, a procedure

in which one is liable to make mis-

takes, but it leaves us an opportu-

nity to at least exercise our own

taste and discrimination.

Dear Dorothy Dix: I am much

interested in these young men who

have been writing you who are fear-

ful lest they should not have auth-

ority over their wives. If a man

lives a life of unselfish considera-

tion for his wife, provides for her

ungrudgingly, constantly develops

the qualities which challenge her

admiration, there will be no ques-

tion as to his authority. If, on the

other hand, he is tyrannical and

stingy and arbitrary and demands

slavish service and obedience, his

wife may give him outward defer-

ence, but in
